From the Boston Post, October 14th.]

The democracy are engaging in the work of redeeming the State with zeal, unanimity, and determination; and are drawing into their ranks additions from every walk in life. Daily are to be met intelligent mechanics and merchants who are sick of waging war on their southern brethren, and who see that the Massachusetts democrats are, as to slavery, but a mind your-own-business party; that they would let it alone and leave it to the influences of soil and climate and to the dealing of the communities that choose to recognise it. Patriotic men are willing to join in this redemption work. Many such for the first time were seen in, and took part in, the late grand demonstration at Fancuil Hall; they avow openly that they are with the democracy in this struggle with sectional-sign.

Such additions are most welcome; welcome, because their influence will speed on the good cause of restoring the influence will speed on the good cause of restoring the influence will speed on the good cause of restoring the look of those who are sowing the seeds of alienation and of hatred between parts of our country. The sentiment uttered by the democratic candidate, as to such additions, will be most cordially endoised by every true democrat. The words of Mr. Beach are: "Combine the strong, conservative and national elements wherever you can find them. The past is dead. Let all past differences and unkind memories be buried. We are all in the same bout and bound on the same voyage. Stop not to inquire at what shrine your companion in this labor may have kneeled; what faith he has held; what creed he has followed. Ask not what he has been, but what is he, where is he now? Does he love his country—South and North, and all together? Would he build up and preserve, or would he, like the strong man of old, pull down and bury himself and all beneath the ruins." Is he solidly with the democracy now? Then, is he a welcome co-laborer in the work of a second revolution here at the North—the peaceful revolution that will recover public opinion from a state of antagonism to the South to a state that regards our countrymen there soe as our fathers in years gone by regarded them—as friends and brethren.

Besides this national view, there is a strictly local reason why the national men should combine into the ranks of the democracy. The men who hold the reins of powam.

Such additions are most welcome; welcome, because

friends and brethren.

Besides this national view, there is a strictly local reason why the national men should combine into the ranks of the democracy. The men who hold the reins of power got them by systematic trickery—by the practice of demagoguism in all its low arts and mean contrivances. Hence the local measures partake of the character of these means; they have looked to partisanship and not to the lasting benefit of the Commonwealth. As an illustration, take the abolition of the simple, admirable probate system; and what reason was there for it? Who called for it? Who arraigned this system? Who, having estates to settle, was not satisfied with it? The sole object in its abolition was to make places to reward partisans. It is, to-day, a question whether the party had, under the constitution, any power to do this; but the measure was a rascally one, judged by the policy of expediency, and is deserving the severest condemnation which every friend to the interests of the Commonwealth can bestow upon it.

Let the good sense of the State weigh these measures—this insane war on our southern brethren, this wahton prostitution of the executive power—and then say whether every consideration connected with a proper discharge of public duty does not require that fanaticism shall be driven from power, and a spirit of nationality be installed in its place.

# NEWS FROM CALIFORNIA BY THE PANA-MA ROUTE.

The steamship Star of the West arrived in New York early yesterday morning, bringing the mails from San Francisco by the Panama route up to the 21st ultimo. Our files of papers came duly to hand last evening. We do not find, however, anything of very great interest, especially as the dates are but five days later than those received by the overland mail, through St. Louis.

The announcement of the success of the laying of the cable had made a great sensation in California, and preparations were making to celebrate it with many demonstrations of joy.

Baldwin's majority in California for supreme court

judge is 7,845. The senate will consist of 24 democrats and 10 opposition. In the assembly there are 55 democratic members and 25 opposition. Hon. W. I. Ferguson, senator from Sacramento county, died on the 14th September from the effects of the wound received in the duel with Johnston.

The second trip of the overland mail line was to leave

San Francisco on the 25th of September, and regularly there after every Monday and Friday. The next mail will therefore be due at St. Louis in two or three days.

The government stables at the Benicia Barracks had been destroyed by fire.

Advices from Fraser river are to September 6th. The

mining news was more cheering. The river was rapidly falling, and the miners were realizing as high as \$80 per day. Dry diggings had been found dear Fort Yale. No new Indian difficulties had been reported in Oregon, but there had been rumors of Indian fights; and one was, that a train and several hundred men, under General Palmer, had been attacked near Walla-walla, and all killed. There had been no confirmation of this. The San Francisco market was active, with large spec-ulative sales of Eastern produce at improved prices. In-spected Haxall flour brought \$13 50 per barrel. Money was abundant and cheap.

## FROM THE GOLD HUNTERS.

The Kansas City Journal of Commerce of the 5th instant has a letter from the gold hunters who recently left that city, dated at Council Grove, September 24th. The company had augmented till it numbered nineteen wagons and one hundred men, who were all getting along well. They say: Thus far we have progressed finely, basing none of our stock, and all the boys being in fine spirits. We have been met by exceed wagons and spirits. We have been met by several wagons returning spirits. We have been met by several wagons recurring from Pike's peak, whose reports are rather discouraging. They showed us specimens which they brought from the mines, of the very finest quality, but in very small parti-cles, and they intermixed with the black sand so that it cles, and they intermixed with the black sand so that it is difficult to distinguish between the gold and the sand. They exhibit it in a small goose-quill, and report it as the result of a summer's hard labor. They believe that there is some gold there, but not in quantities sufficient to pay for mining. They were in the mines prespecting for nearly three months. These reports and statements are corroborated by others whom we have met and who advise not return. alvise us to return.

## PICCOLOMINI.

Just previous to the departure of Piccolomini from Europe, she received the subjoined verses from the poet Mackay:

PECOLOMINI DEPARTING FOR AMERICA. the comes, she comes from the Southern skies, With all their sunshine in her cyns— A sunshine that her tips prolong in joyous bursts of living song.

She comes, she comes from British earth, The Queen of Mu-e and of Mirth— Crowned with the double wreath she claims Affection's gift as well as Fame's.

She comes, ahe comes across the sea— Receive her, nation of the free; And when she sings let hearts be atone, Or she will make them all her own.

All, all her own by magic wiles,
of sighs and blushes, tears and smiles,
And songs that sparkie from her mouth
Like sunheams in her native South.

SEREN 28, 1853. DR. CHARLES MACKAY.

The bullion in the Bank of France now stands at about \$120,000,000—a far higher sum than was ever before held by that establishment, and more than \$9,000,000 in excess of the largest total ever collected in the Bank of England. At the commencement of the present year the Bank of France held less than \$50,000,000, and he influx in nine months has therefore been \$70,000,000. At the Bank of England the total, at the beginning of the year, was \$32,000,000, and it is now more han \$95,000,000. The highest sum it ever possessed was \$111,000,000 in July, 1852.

The Americans and republicans in the first congressional district of New York have nominated Luther C. Carter, of Flushing, for Congress. In the second district James Humphrey is the fusion candidate.

#### PERSONAL INTELLIGENCE.

Among the recent arrivals at New York from Europe was a man who had played a somewhat conspicuous part in the Hungarian revolution—George d'Arnsberg, adjutant of General Dembinski. Condemned at first by an Austrian court-martial to be hruged, his penalty was afterwards commuted to sixthen years' imprisonment in irons in the fortress of Kustein. On the 1st of August last, the Emperor having remitted the balance of his sentence, George d'Arnsberg went to Hanover, whence he sailed for this country to join the other Hungarian emigrants who have settled in America.

#### CITY INTELLIGENCE.

RICHMOND AGRICULTURAL FAIR.—In compliance with an order from the Secretary of the Navy, Captain Rudd, the commandant at the Washington navy-yard, has furnished a large number of United States and foreign flags, to be used in the decoration of the grounds occupied by the United States Agricultural Society, at their approaching fair to be held at Richmond, Va. It is expected that this fair will be attended by a large number of visiters from various parts of the Union. Several distinguished functionaries from this city and members of the diplomatic corps have also signified their intention to be pres-

We notice by the published list of officers of the fair that Edward G. Dill, esq., of this city, has been appointed private secretary to President Tilghman. W. D. Wallach, esq., is chairman of the committee on carriages, wagons, harness, &c.; and John Savage, esq., is a member of the committee on finance. Thus it will be seen that the Washington press is well represented.

PRESENTATION.—The committee appointed by the ladles, friends of the President's Mounted Guard, to select a suitable present for presentation to that company as a testimonial of their esteem, have procured a beautiful silk American flag from the establishment of E. A. Gibbs & Brother, Baltimore. The flag is seven feet long by four feet wide, and is made of the finest texture of silk. On one side is a wreath with the following inscription: "Presented by the ladies, friends of the President's Mounted Guard of Washington city, D. C., October 19, 1858." On the other side a beautiful cluster of stars, representing the States of the Union. The committee, M. E. Peck and Miss Elizabeth G. Towers, deserve credit for their tasteful selection. The flag will be pre-sented to the company by Miss Towers, at the residence of Quartermaster Towers, Indiana avenue, between 1st and 2d streets, on Tuesday, the 19th Instant, at 2 o'clock, p. m.; and will be received by Capt. Jos. Peck. The field and staff officers of the regiment have been invited, who will be present in full uniform.

THE COAL TRADE. - In consequence of the neglect of the officers of the Chesapeake and Ohio Canal Company to keep that portion of the canal between Georgetown and ington in navigable order, all the coal that is received here has to come via Alexandria, the coal boats going down there on the canal and being towed up by steamers to this city. This subjects the consumers of that article here to increased expense, and deprives us of a profitable trade that we might otherwise enjoy. The expenditure of one or two hundred dollars at this point would prove of great advantage; and if the canal was in good order, as it should be, the basin on the Anacostia river would make an excellent coal depot. We are glad to perceive that this subject has attracted the attention of the city councils, and a resolution passed both boards last Monday evening requesting the Mayor to take such action as he may deem best to remedy the evil complained of.

WASHINGTON THEATER. - Mr. Davidge was warmly reeived last night, and made a very favorable impression. He is an actor who treads the stage with case and grace, and has appeared at several of the English theatres, where he enjoyed a high reputation, besides having distin-guished himself as the author of several popular dramas. In this country he has starred it in the principal cities, and for a long time was one of the leading favorites at the Broadway Theatre, New York. He will appear tonight in the drama of "Dominique the Deserter," and

the farce of "Petticoat Government."

In speaking of this theatre, we will mention that we have heard high encomiums from several sources of the nightly performances of the orchestra under the direction of our young townsman, Withers. The music is of a high order, and could not easily be surpassed even by a larger orchestra and under a veteran leader.

RENOVATION AT THE CAPIT J. .- As the time approaches or the renewal of the business of federal legislation, we observe that preparations are being made for the comfort and convenience of members of Congress. In the Senate chamber the carpets are being put down and the desks varnished, and similar operations are going on in the hall of the House of Representatives. It is presumed that the Senate will not take possession of its new hall this winter, on account of a fear that the room may be too damp for health, although it will doubtless be completed. Capt. Meigs declines to furnish the hall from the appropriation for the Capitol extension; and as the Secretary of the Senate has no funds in his hands for that object, it cannot be furnished until after the assembling of Cougress, and an appropriation being made for that specific purpose.

THE BALL MORE AND POTOMAC RAILROAD .- Robert Bowie, sq , of Prince George's county, agent for obtaining sub riptions to the Baltimore and Potomac Railroad, reports that since he commenced his canvass about four weeks ago, he has obtained subscriptions for the enterprise of 1,000 shares, amounting to \$50,000, the sum required by the charter for the formation of the company.

The commissioners, therefore, will meet at Upper Mari borough on the 3d November, for the purpose of calling a meeting of the stockholders to elect a board of direct tors.

The encouragement received by the agent in a hasty anvass inspires great confidence that the amount necessary to complete and stock the road, and a sustaining lo cal patronage, will not be wanting.

REAL ESTATE .- On Thursday the following property ras sold by A. Green, auctioneer: Small brick h lot in square 930, located on the navy-yard, for \$480, to E. E. White.

McGuire & Co. sold a lot in the subdivision of lot 24, a square 515, on L street north, between Fourth and Fifth streets, with the improvements, consisting of a well-built three-story brick house, for \$860, to Samuel Cropley.

A. Green, auctioneer, sold last evening a part of lots and 2, in square 253, on the north side of F street, near the corner of Tairteenth street, having a front of 37 feet 8 inches, and running back 82 feet 104 inches, to Mr. Evan Hughes, for ninety cents per foot. There a frame building on the premises which is not of much value.

MERITED COMPLIMENT TO THE MAYOR. -The Washingon correspondent of the Richmond South speaks in the following terms of the condition of this city at the present time, and gives the praise where it is justly due:

"This city is, indeed, a model of law and order. Officers of the watch are to be seen perambulating our streets on their several beats, intent on the suppression of every-thing bordering on disorder. 'To our worthy and efficient mayor, Col. James G. Berret, we owe a debt of gratitude. He is seen at all times at his post, and has shown by his letermined course of action that rowdyism can have no determined course of action that rowdyism can have no footing amongst us so long as he is the presiding officer of our city. Already he has made an example of some three or four of the officers of the watch, who were incompetent to enforce order and quiet from the fact that they were found intoxicated while on duty. The mayor, being informed that such was the case, immediately dismissed them, and appointed reliable men in their stead."

Masonic.—Last evening the Grand Lodge of the District of Columbia made their annual visitation to Hiram Lodge, No. 10. This lodge has a neat little hall on 19th street, near Pennsylvania avenue, and has within a few months past made an outlay of several hundred dollars to render it comfortable and pleasant as a resort for the "brethren of the mystic tie." Among other objects of interest an excellent likeness of Bro. George Washington occupies a prominent position there.

PROFESSOR McLnop will favor the citizens of Alexandria with a series of readings and recitations from the Poets, Dramatists, and Orators, next week, commencing on Tuesday evening, at the Lyceum Hall. Having devoted much time to this subject, the Professor is well qualified to instruct and interest his hearers, and we hope these readings may be well attended.

HOSE FOR THE WESTERN HOSE COMPANY.

To the Editors of the Union: I noticed in the proceedings of the board of aldermen, as published in your paper on Tuesday last, that the communication from the Western Hose Company is reported to have asked an appropriation of \$4,800 for the purchase of hose for the use of said company. This is an error, which you will greatly oblige the company by correcting. The communication simply asked an appropriation sufficient for the purchase of hose for the use of the company, which will be about six, or not exceeding seven, hundred dollars.

The amount of \$4,800 is what the company has expended, without recourse to the corporation, in the erection of buildings and purchase of apparatus. Lots and apparatus have been purchased and buildings crected for most of the existing companies, and we therefore thought that we were entitled to an appropriation of six or seven hundred dollars.

Respectfully, your obedient servant,

# EDUCATION.

LEXANDRIA HIGH SCHOOL.—This institution

LEXANDRIA HIGH SCHOOL.—This institution
is a select bearding school for young men and youth in the city
of Alexandria, Virginia. The number of students continues, as in
former years, to be limited to as many only as can receive the minute
attention of the principal, it being his desire to combine, as far as
practicable, the social and moral advantages of a family with the
classification and discipline of a school.

The principal brings to his assistance in the pursuit of his profession, the experience of more than twenty years, during which time
he has been engaged in the instruction of young persons from almost
every section of the Chion.

Students may prepare themselves at this school for entering any
class in college, or for the active business of life. Especial attontion
is given to the study of natural philosophy, chemistry, and the mathematics, as well as to book keeping, and the ordinary English branches.

Mineralogy, geology, and the application of chemistry to the arts

A VAN CAMP, DENTIST, has returned to the matics, as well as to book keeping and the ordinary English branches.

Mineralogy, geology, and the application of chemistry to the arts are laught by the ail of systematically arranged cabinets, and are made a part of the regular course on civil engineering.
Full courses of illustrated lectures on natural philosophy, chemistry, and astronomy are annually delivered in presence of all the students. H. GILLET, Counsellor at Law, has removed furteenth streets. He will continue to devote his attention principally to cause in the United States Supreme Court.
